## 1. Qualitative Information Concerning the First Quarter Financial Results

## (1) Qualitative information concerning the consolidated operating results

The Japanese economy in the period under review (April - June 2012) displayed a moderate rebound aided by the rebuilding effort after the Great East Japan Earthquake, attended by recovering production activity and facility investment in the corporate sector as well as signs of an upturn in personal consumption.

However, with the European debt crisis promoting the long-term appreciation of the yen and with electric power supply constraints in Japan, the outlook remains uncertain.

In the market for mobile phone handsets, the core business field of the Group (the Company and its consolidated subsidiaries), sales developed favorably as the market continues to be buoyed by the full-scale shift to smart phones. In this business environment, the Group has been concentrating on sales activities with the focus on expanding sales of smart phones. As a result, mobile phone sales were largely unchanged from the same period of the year earlier, and smart phone sales accounted for almost 60 percent of the total.

In the Mobile Telecommunications Business, unit sales developed favorably but were overshadowed by growing sales of low-profit non-voice related merchandise and higher selling cost of shops caused by the rising proportion of smart phones among sales of handsets. Additionally, the selling cost of sales channels increased.

In this difficult environment, the Group worked to further expand sales of smart phones and tablet terminals to secure the Group's sales and earnings, and made proactive efforts to strengthen sales of peripheral products including accessories.

In the Solutions Business, sales of handsets and tablet terminals to corporate clients as well as subscriptions for support services and sales of optical communication line services such as FTTH developed favorably.

In the Settlement Services Business and Other Businesses, sales of electronic-money based merchandise which is used to make payments for internet-based merchandise purchases and SNS (Social Networking Service) content purchases remained robust.

As a result, for the period under review (April - June 2012), net sales totaled 167,821 million yen, with operating income of 1,993 million yen, ordinary income of 1,955 million yen, and net income of 1,043 million yen.

Since consolidated financial statements for the first quarter of fiscal year ended March 31, 2012 was not created, comparative results are not presented.

Results by business segment are described below.

Note that, beginning in the consolidated period under review, the Group has applied new business segments, which are "Mobile Telecommunication Business," "Solutions Business," and "Settlement Services Business and Other Business."

The "Network Communications Business" segment was combined with the business of selling mobile phones and handsets for corporate clients, which was included in the "Mobile Telecommunications Business" segment by the fiscal year ended March 31, 2012, and "Solutions Business" segment was set up. Also, the name of "Prepaid Settlement Services Business and Other Business" was changed to "Settlement Services Business and Other Business."

#### (Mobile Telecommunications Business)

In the period under review (April - June 2012), sales totaled 129,493 million yen as the Group worked to increase sales of handsets with the focus on the full-scale shift to smart phones, and strengthened sales of peripheral products including smart phone accessories.

Earnings posted operating income of 842 million yen, reflecting higher sales of low-profit non-voice related merchandise, increasing selling cost of shops associated with the rising proportion of smart phones among handset sales, climbing selling costs of sales channels, and the cost of store improvement to further enhance customer satisfaction.

#### (Solutions Business)

In the period under review (April - June 2012), sales totaled 7,518 million yen, with operating income of 846 million yen. This result reflects sales of handsets and tablet terminals to corporate clients and the steady acquisition of subscribers for support services related to the introduction and management of mobile terminals by corporate clients. Moreover, despite the anticipated large decline in new sales of MYLINE services, sales of optical communications lines services such as FTTH performed well.

#### (Settlement Services Business and Other Business)

In the period under review (April - June 2012), sales posted 30,808 million yen, with operating income of 304 million yen, thanks to continued favorable conditions surrounding sales of electronic-money based merchandise which is used to make payments for internet-based merchandise purchases and SNS (Social Networking Service) content purchases.

## (2) Qualitative information concerning the consolidated financial position

(Assets)

Current assets totaled 130,892 million yen. Main items are 65,837 million yen in accounts receivable-trade, 44,384 million yen in products, and 17,397 million yen in other accounts receivable.

Fixed assets totaled 17,677 million yen. Main items are 3,115 million yen in tangible non-current assets and 6,729 million yen in goodwill.

As a result, consolidated total assets at the end of the period under review were 148,570 million yen.

### (Liabilities)

Current liabilities totaled 108,692 million yen. Main items are 52,440 million yen in accounts payable-trade, 29,424 million yen in short-term borrowings (including long-term borrowings payable within one year), and 24,904 million yen in other accounts payable.

Long-term liabilities totaled 15,909 million yen. Main items are 13,766 million yen in long-term borrowings, and 1,057 million yen in asset retirement obligations.

As a result, consolidated total liabilities at the end of the period under review were 124,601 million yen.

(Net assets)

Consolidated total not assets at the end of the period under review were 23,968 million yen.

## (3) Qualitative information concerning the consolidated financial forecasts

The earning estimates for first half (April – September 2012) and full-year, released on May 14, 2012, remain unchanged.

Three months (April - June 2012) sales represent 22.1 percent of the full-year estimate released on May 14, 2012, with percentages for operating income, ordinary income, and net income at 13.0 percent, 13.0 percent, and 12.1 percent, respectively.

## 2. Summary (Notes) Information

## (1) Changes in significant subsidiaries during the consolidated quarter under review

Beginning with the period under review, consolidated accounts include T-Gaia (Shanghai) Corporation and TG Contract Co., Ltd., whose importance has been increasing.
